

Purrfect Grooming

Matted Fur Release Form

Matted coats can cause a variety of skin and health problems. Matted fur does not allow for air to circulate to the skin which can cause hot spots, and bacterial & fungal infections. Fleas, ticks, maggots and other parasites may be lurking in the coat causing further skin infections. Matted fur also pulls and binds, causing pain to your pet when they move or lie down. The skin underneath is usually raw and inflamed. Matted coats will not dry properly and can lead to rotting fur and skin.

Purrfect Grooming will do our very best to de-mat your pet as carefully as we can. However, there is a possibility of injury including abrasions, bruises, sores, and/or rashes due to the clipping and/or de-matting process.

I, _____, understand the risks involved with the de-matting process and release Purrfect Grooming from any and all liability associated with as well as any medical problems that may be uncovered and/or occur during the shaving, clipping, and de-matting process.

*The first 15 minutes of brushing are free but depending on the amount of time needed to de-mat a fee of \$20 will be accrued for every 30 minutes of additional brushing/dematting.
